

Electronic System Services Inc (ESSI) becomes first US Certified *eLighting*[™] Partner

On the 5th January 2009 Electronic System Services Inc (ESSI) attained *Certified eLighting*[™] Partner status.

Electronic Systems Services Inc (ESSI), Fort Meyers, Florida, a highly successful and respected Tridium Niagara Partner, can now offer a lighting commissioning and controls solution which seamlessly integrates into Tridium's Niagara AX Framework and hardware platforms. *eLighting*[™] for Niagara AX[™], which creates a huge opportunity to reduce client costs for lighting control and energy consumption whilst improving user experience and offering lower cost of ownership, fits perfectly with ESSI's business strategy.

Control Network Solutions Ltd (CNS) is a Niagara Developer and the creator of *eLighting*[™] for Niagara AX[™]. This is a product suite of software and hardware that enables the direct connectivity of Open standard DALI® intelligent lighting devices to hardware platforms running Tridium's Niagara AX Framework®, a software framework that integrates diverse systems and devices - regardless of manufacturer, or communication protocol - into a unified platform that can be easily managed and controlled in real time over the Internet using a standard web browser.

End users of *eLighting*[™] for Niagara AX[™] benefit from:

- 1) Reduce energy wastage, lower cost of energy and ownership
- 2) Comply with the latest and future Building Regulations
- 3) Smarter integration and user experience
- 4) Suitable for both new and Retrofit
- 5) Future proof and highly scalable
- 6) Open standards web based and DALI® technology

For more information or to meet with ESSI, including at the AHR Expo 2009 in Chicago please contact Mark Robbins, Director of Sales and Marketing - Tel: +1 (239) 561 3774, Cell: (239) 872-0077 or Email: mrobbins@essicontrols.com
