

See a live demonstration at the Battery Beach Burnout February 21-22<sup>nd</sup>, 2009

ESSI is proud to be Florida's premier supplier of ClipperCreek, Inc.'s High Rate Charge Station compatible with all the major automakers' plug-in hybrid and electric vehicles.

ClipperCreek's EV charging station (EVSE) will charge most cars in as little as 1 to 3 hours, configurable to charge during certain hours and to notify you if charging is unexpectedly stopped. Whether charging at home or business, ClipperCreek's charging station is UL listed for utmost safety with products for public, fleets, private business, home and ROV in-cord devices. ClipperCreek's exclusive technology ensures your vehicle charges every time.

ClipperCreek's EV charging station is compatible with 110 and 220 Volt models for:

- BMW Mimi E
- The Tesla Roadster
- All SAE vehicles soon to market such as the Chevy Volt and the Nissan Cube Minicar
